Experience

City Weekly, Salt Lake City, Utah

Editorial Assistant December 2017 – Present
Edited copy and design for each week's issue as well as City Weekly's other publications such as Best of Utah and City Guide. Other responsibilities included writing cover stories and news as well as blogs for online-only content. Also shot photos and contributed content where needed.

The Tennessean, Nashville, Tenn.

REPORTER June 2016 – February 2017
Helped revamp the Tennessean's coverage of Williamson County, Nashville's largest suburban county. Jobs included developing media relationships with important figures in the community, expanding our social media reach and readership and developing in-depth stories with interactive features for the online product.

The Leaf-Chronicle, Clarksville, Tenn.

MILITARY REPORTER June 2015 – June 2016
Reported and developed content focused on Fort Campbell, one of the largest Army bases in the country. Jobs included developing my own following in print and online for the niche military community in Clarksville, learning the ins and outs of the Defense Department and filming and editing video content for the news website.

Columbia Missourian, Columbia, Mo.

ASSISTANT NEWS & SPORTS EDITOR August 2013 – May 2015
As a graduate assistant, I worked with professional editors on managing reporting and editing, the home page layout and breaking news coverage. I also coached younger students in the sports department to generate story ideas and train new designers how to layout and design the daily newspaper. This included drafting a daily budget for each day's content for online and in print. Work was always completed in a deadline environment and often included quick changes and adapting on the fly to meet deadline.

DESIGNER June – August 2014
Designed front pages for news and sports sections, photo pages and inside pages. Collaborated with news editors, photo editors and copy editors to make sure the content was represented accurately.

Education

University of Missouri
